

NEWS RELEASE

November 16, 2016

Palau Royal Resort pronounces that every day is best to adapt a water conservation responsibility. In line with Republic of Palau's erratic water levels and also the earth's climate change, Palau Royal Resort will carry an advocacy by preserving water and the use of energy through "The Saving Environment Card". (See picture below)

As part of the tourism industry, Palau Royal Resort creates a guiding context to promote water and energy management. "The Saving Environment Card" to be displayed effective 1st December 2016 to all 157 guestrooms states that the resort is encouraging all guests to cooperate this advocacy by placing the tent card on the bed if to wish changing bed sheets and pillow cases. For replacing towels, it is requested to place in the bathtub.

Through the simple concept and the valued efforts of each guests, environmental issues as well as our effort of "saving the earth" will prevail.
